TECNOVAP Jetsteam Force

What is Jetsteam Force?

The Jetsteam Force is the most advanced industrial steam generator of its kind.

It combines the design and technology of over 25 years of commercial steam generator research and development.

It features a powerful 14L water and 14L detergent tank, and 7,3L boiler.

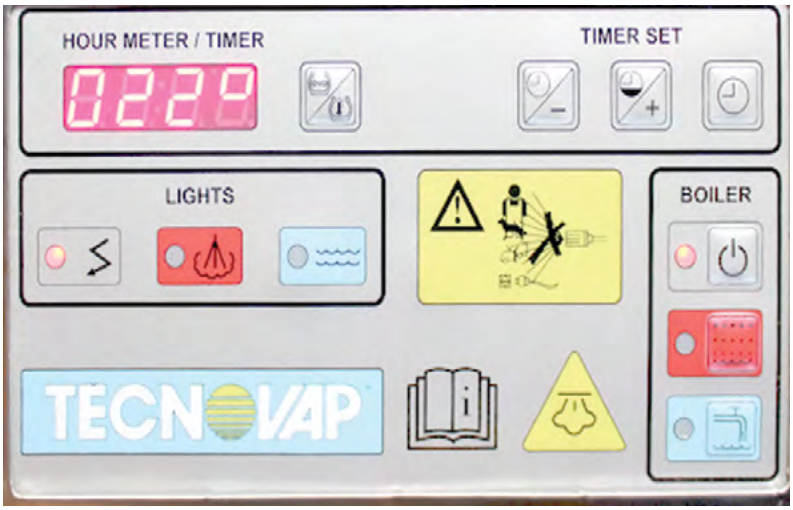
TECNOVAP Jetsteam Force

Never run out of water

Out easy “connect and go” feature allows for a hose to be plugged directly into the machine providing a 24/7, continuous water supply. No cleaning downtime, no stopping to fill up your machine.



A mind of its own

The advanced digital control panel features a unique timer, allowing for your machine to automatically “wake up” and turn on, and operate by itself.

The easy to use control panel also features digital temperature read out, steam pressure and water connection indicator.

Total Control

The only machine to have both water and detergent injection features. Control it all through a flick of the switch.

TECNOVAP Jetsteam Force

Blast Away

It's powerful 14 L water tank provides a hot water blast that rinses and flushes away debris, dirt and grime.

30 Per Cent More Heart

At the heart of every great machine is the boiler. This huge 7,3L boiler engine is 30 per cent bigger than any other machine of its kind.

Large Range of Tools

Tecnovap® steam accessories and kits are the most versatile cleaning tools available. Kits include the July kit.
