It's All about Productivity.

Duplex Lithium Evolve has been designed to provide maximum productivity: The Sweeping action saves time by not having to pre-sweep the floor and at the same time ensures better drying compared to traditional machines by protecting the squeegee from solid objects. The dual counter-rotating cylindrical brushes ensure a high level of cleaning on all types of floor and a significantly higher performance compared to machines that use discs or a single cylindrical brush. The bi-directional squeegee makes the machine highly flexible as it can dry even in confined spaces.

No cords, no restrictions

Featuring a Lithium battery and cordless design, the Duplex Lithium Evolve will go where you want to go.

You are in total control - Clean right to the very edge, around objects and everywhere in between.

With its long life battery, a single charge will give you 1 hour of cleaning covering up to 1000 square metre area. Increase your productivity, efficiency and cleanliness.

Dual design, dual power

No need for multiple products. The Lithium Evolve by Duplex is a dual floorcleaner, and sweeper-scrubber-drier.

Simply switch on and wash, scrub and dry all floors in a single pass.

Easy to use, transport and store, with just one machine, you will save space, money and time.

Sweep, scrub and dry

Using as little as 4L (1000 sq metre) of water to clean a medium sized building. The Duplex Lithium Evolve allows you to control the amount of water that is fed onto the floor - no flooding or water waste. Let the triple washing, sweeping, scrubbing and drying system do all the work.

The water tank clicks off for easy filling. Simply fill up at your nearest tap or leave the tank in place and pour in water.

Chemical-free powerhouse

No chemicals, detergent or bleach required.

The machine mechanically agitates the floor or carpet, lifting dirt, grime and stains from deep within the floor surface.

With the Duplex Lithium Evolve, no smell is a clean smell.

Right to the wall cleaning

Portable and manouverable.

With its unique, in-built side wheels with offset brushes, this robust floor cleaner will clean up to the very edge where the floor meets the wall.

The in-built side wheels allow the user to simply pull back the handle and wheel like a trolley.

Dual-direction cleaning

The design and versatility of the Duplex Lithium Evolve allows bi-directional cleaning.

With the brushes working to the edge on one side, a fluid movement to change handle position allows cleaning up to every edge without having to lift or turn the machine.
