CORDLESS

Duplex®

DUPLEX LITHIUM

Battery operated dual floorcleaner and scrubber
Wash, scrub and dry all floors in a single pass

Competitive advantages of the Duplex Lithium

3 IN 1 FLOORSCRUBBER

A first of its kind machine featuring 15 patented designs, the Duplex Lithium can wash, scrub, and dry ALL floors in a single pass.

CORDLESS AND COMPACT

The latest Duplex Lithium design has an in-built battery allowing for easy floor cleaning. No trailing cords, no restrictions.

REPLACES MOPS, BUCKETS, POLISHES AND VACUUMS

With the Duplex Lithium, there is no need for multiple floor cleaning products. This machine really can do it all.

DRIES FLOORS WITHIN MINUTES

Using as little as 1.75L of water to clean a small to medium sized house, office or building. The Duplex Lithium allows you to control the amount of water that is fed onto the floor - no flooding or water waste. Let the double washing and scrubbing system do all the work.

CLEAN A RANGE OF FACILITIES

This versatile floor scrubber can be used on ALL floors and for many industries. Industries include:

- Clinics (vets, dentists, medical centres etc)
- Transport (buses, trains, planes, ferries etc)
- Domestic (homes, apartments etc)
- Buildings (retail, office buildings etc)

CHEMICAL-FREE

No chemicals, detergent or bleach required. The machine mechanically agitates the carpet, lifting dirt, grime and stains deep within the floor surface.

EASY TO USE

The lightweight and compact design allows it to be transported from room to room with complete ease. The offset side wheels act like a trolley to easily wheel to and from locations.

Distinguishing features of Duplex Lithium

The Duplex brand stands for efficiency, quality, versatility, cleanliness and hygiene. Thanks to its superior design and features, the Duplex Lithium will be your “go to” machine for all your floor cleaning needs.

BRUSHES

- **A double washing / scrubbing system:**
Brushes rotate in opposition at 4 metres per second.
- **600,000 bristles:**
Mechanically agitates the floor/carpet surface to lift grime.
- **Commercial grade brush design:**
Achieve a deep clean for ALL floors.

TWO WAY HANDLE

- **Forwards & backwards motion:**
Balanced design to ensure easy maneuverability.
- **One finger water trigger:**
Manual control over water - no flooding or misplacement.
- **180° degrees handle:**
Get under hard to reach places.

CENTRAL WATER FEED

- **Water fed directly into floors:**
Achieve a deep clean for ALL floors.
- **Minimal water:**
Clean an entire medium sized house with just 1.75L of water.

IN-BUILT SIDE WHEELS

- **In-built side wheels:**
One sided wheels with offset brushes allows cleaning to where floor meets wall.
- **Trolley transportation:**
Simply pull back the handle and wheel like a trolley.

RECOVERY TANK

- **Twin conveyor belt system:**
Transports dirty water from the floor into the central tank.
- **Lift our tank:**
Lifts straight out for fast and easy emptying.

Timber

Marble

A TECHNOLOGICAL EVOLUTION IN CLEANLINESS

Duplex Lithium

The Duplex Lithium is the latest addition to the Duplex family.

It is a little engineering gem. With a cleaning width of 280 mm (11"), this machine cleans, scrubs and picks up dirty water and grime. It leaves floors clean and dry in a very short space of time.

Using the Duplex Lithium is fast and simple. There are no trailing cables to get caught in doorways, furniture or any other likely obstructions. It can reach into the tightest corners with ease.

Built with an aluminium casing, it is easy to use, transport and store.

To ensure you get the best out of our machines we provide certificated on-site training and installation throughout the country.

Why not book a demonstration of the Duplex Lithium and see the power of Duplex for yourself.
