

STEAM GENERATOR

STEAM SKY

Body material
Stainless steel AISI 304 (BA)

Boiler material
Stainless steel AISI 316 L

Boiler volume
10,7 L

Diesel tank
18 L

Water tank
35 L

Detergent tank
15 L

Diesel consumption
4 L/h

Boiler output
35.000 kcal/h (40 kW)

Energy consumption
450 W

Steam production
916 g/min - 55 Kg/h

Power supply
230V 1~: 12V DC

Steam T°
183° C

Detergent T°
90° C - 160° C

Weight: 220 Kg
Packaging: 120x80x130 cm

INTEGRATED WATER FILTER SYSTEM
WITH AUTOMATIC FILTER REGENERATION

BOOK A FREE DEMONSTRATION
+618 9249 8744

APPLICATIONS

Single-phase steam generator with diesel fired boiler, with a stainless-steel body (watertight protection IPX5), **unlimited steam autonomy** thanks to the automatic refilling system with either an internal water tank (electromechanical water level control system inside the boiler – True Temp™) or directly with a water mains connection. **Possibility to inject detergent or hot water together with steam.** Fitted with 2 steam connections. The steam generator's front panel is equipped with an electric console with commands for a timer, a thermometer and a pressure gauge; the digital display will advise the user about the necessity to proceed with the boiler maintenance.

OPTIONAL: Inverter for direct connection to a vehicle battery (12V).

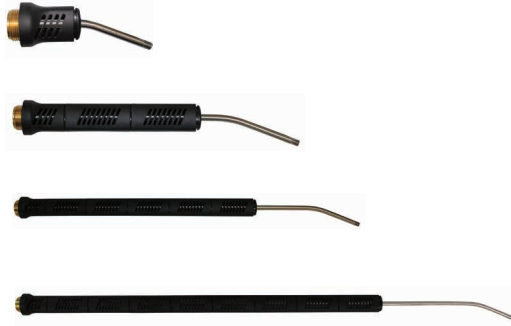

TOOLS

GEYSER | 10 BAR

Steam hose

100mm - 400mm - 800mm - 1200mm lances

Stainless steel brushes T50

Flat nozzle 1cm

Rotating tool

Window cleaner w/diffuser - Steam brush w/bristles

Weed killing conveyor
