

KM 35/5 C

The innovative battery driven micro sweeper KM 35/5 C is designed for quick clean-ups and maintenance cleaning of smaller hard surfaces. It is a convenient, effective, and a quick alternative to conventional sweeping with a broom and dustpan. The sweeping result is impressive even when sweeping near edges thanks to the clever positioning of the roller brush. A powerful lithium-ion battery allows convenient sweeping without annoying cables. You can press the on / off switch with your foot.

1 On/off foot pedal

- Simple operation.
- Prevents incorrect operation.

2 Roller brush with V-shaped bristles and side bristles

- Sweeps close to the edge thanks to specially developed roller brush with angled bristles.

3 Upright storage

- Space-saving design.
- Roller brush relief.

4 Quick changeover system (roller brush)

- Quick roller brush replacement without tools.
- Main roller brush easy to clean.
