

T 7/1 Classic

Light and ergonomic: the T 7/1 Classic with standard fleece filter bag is an entry-level class vacuum cleaner, offering great value for money, powerful suction and cord storage.

1 Low weight

■ The T 7/1 Classic is up to 50% lighter than competitor models with the same container capacity and is easy to transport due to its low weight (3.5 kg). Stairs or longer distances are not a problem.

2 Main filter basket for optimal dust separation

■ The permanent main filter ensures optimum dust separation, allowing operation without a filter bag.

3 Maximum suction power with simultaneously minimal energy use

- Instead of using oversized turbines, the T 7/1 Classic offers optimised air flow and maximum suction power.
- Compared to our competitors' machines, power input and power consumption are nearly 25% lower (1,000 watts compared to 1,300 watts).

4 Cable hook

The power cord is simply attached to the cord hook. This prevents dangerous tripping hazards during transport.

TECHNICAL DATA AND EQUIPMENT

T 7/1 Classic

- Extremely lightweight (< 3.5 kg)
- Strong suction power
- Low noise
