

HYGEN™

Work Smarter.

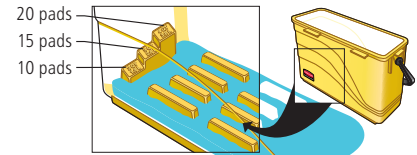

Rubbermaid HYGEN™ Microfibre Buckets

Rubbermaid HYGEN™ Microfibre Bucket is a highly efficient flat mop cleaning system for healthcare and sanitary maintenance applications.

- Use with Rubbermaid HYGEN™ Microfibre Damp Mops and Quick-Connect tools for a continuous cleaning process with “no touch” wringing.
- Easy-to-clean, lightweight non-porous plastic construction.
- Safe for use in MRI rooms.
- Bucket works with Rubbermaid HYGEN™ Microfibre Cleaning Cart.

RFGQ95088 Charging Bucket

- Reduces cross-transmission when a fresh mop is used for each room or area.
- All plastic buckets hold 10–20 microfibre damp mops.
- Each mop holds enough liquid to clean up to 23.23 sq m; fully loaded bucket (20 mops) can clean up to 464.5 sq m.

Bucket design prevents over-saturation of microfibre mops and features a measuring guide for filling with cleaning and disinfecting solution before mops are added.

RFGQ95088

After adding cleaning solution, load mops into bucket, lock the lid in place, and shift the bucket from side to side or store on its side/ upside down for a minimum of 10 minutes to moisten the mops.
