

**A HEALTHY HOME ENVIRONMENT FOR YOUR FAMILY JUST GOT EASIER**

Would you like to :

- spend less time cleaning and enjoy better results?
- remove allergens AND the dirt from your carpet and upholstery?
- have your carpet last longer?
- enjoy the reliability of a vacuum cleaner with a world-wide reputation for excellence?

Of course you would, which is why we're introducing you to the sensational **Sebo Automatic X4 vacuum cleaner.**

Only a high performance vacuum cleaner will be up to the task of ensuring your family has limited exposure to the allergens and bacteria that lurk in every home. The best performer, recommended by the professionals, comes from the people who revolutionised the vacuum cleaner in Germany in the 1970's and have been in the forefront of the industry ever since.

The Sebo Automatic X4 vacuum cleaner features the hospital grade, S-Class Filtration System that has the **Seal of Approval from the British Allergy Foundation.** It meets the demanding requirements of asthma and other allergy sufferers by firmly trapping all the fine dust particles inside the machine.

**Research undertaken by the U.S. Environment Protection Agency found that the air inside homes is three to five times more polluted than the air outside, exposing the family to respiratory and other health issues.**

Electronic height control enables the vacuum to identify the type of floor and the height of the carpet nap, raising or lowering the brush automatically for optimum pet hair pick up. It's just as powerful on hard floors too.

Inventive accessories guarantee the best results when dealing with upholstery and drapes.

The X4 also features a body that can be collapsed flat with the floor making it simple to get all the suction power of the Sebo Automatic X4 power head under beds, couches and other areas normally difficult to reach.

Say goodbye to scrape marks on skirting boards and furniture. This dream machine has rubber wheels and bumpers that protect the area you're vacuuming even on those days when you don't have time to be too careful.

The intelligent computer system detects clogging and shuts down the machine automatically so that damage is avoided.

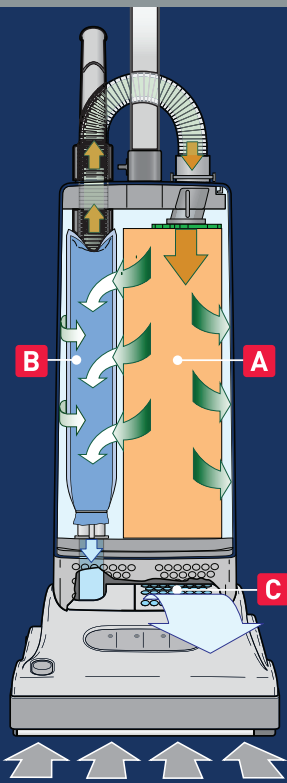

THE **SEBO AUTOMATIC X4** COMES WITH THE **GUARANTEE OF HASSLE FREE, PROFESSIONAL SERVICE** OF YOUR VACUUM CLEANER IN THE UNLIKELY EVENT IT SHOULD BE REQUIRED

## THE S-CLASS FILTRATION SYSTEM UP CLOSE

## PRODUCT FEATURES AT A GLANCE

**A** The first stage in the filtration system consists of the sealable, 3-layer filter bag. This effectively retains bacteria, allergens and other potentially harmful substances for safe disposal.

**B** The next stage is a second filter. The Micro Hygiene Filter is made of electrostatic material that captures even the finest particles.

**C** The final stage is a third filter. The Motor Filter ensures air is clean and pure protecting both the environment and the motor.

It's little wonder that this system has the respect of professional cleaners in hospitals and other environments where people's wellbeing is paramount.

- A height control system that makes the level selection for you
- As much at home on hard floors as carpets
- The S-Class filtration system traps harmful substances in a series of three filters
- The vacuum will shut down automatically if there is any clogging
- It has excellent edge cleaning capabilities
- Practical on-board accessories
- A 12 metre cable limits the number of times a new power point needs to be located
- The hose and tube are telescopic allowing for hard to reach access
- The flat to the floor profile means that even the lowest furniture is accessible
- An indicator system that's computer controlled
- Simple to empty, clean and maintain
