- carpet
- walls/bench
- bathrooms
- upholstery
- equipment
- windows

This versatility makes the JetVac Junior ideal for cleaners or companies, such as hotels, with diverse cleaning requirements.

INCLUDED STEAM VAC KIT

OPTIONAL STEAM KIT

AUTOMOTIVE

The JetVac Junior makes automotive interior cleaning and detailing a breeze for car detailers, car dealers, transport companies, car rental outlets, taxi corporations and car buffs. The superheated drysteam produced by the JetVac Junior is great for cleaning interiors, wheels, engine bays and hard to get areas. Steam is especially efficient on interiors as they are dry in minutes.

BATHROOMS

The JetVac Junior is ideal for improving bathroom cleaning and time efficiency in hotels, shopping centres, schools, hospitals, nursing homes or sports venues that have many or large bathrooms. The high pressure superheated dry steam produced by the JetVac Junior melts soap scum/grime with ease, sanitises surfaces on contact, deodorises and cleans hard to get areas.
