

# The best there is .....

## HZ750, HZD750

The 750 models, like the 570 and 900's, are available in a choice of two specifications. The HZ750 is a single motored model and the HZD750 is a twin motored unit.

The main difference between the 750 and 900 models is the all steel construction from top to bottom; power head, filter module, container and heavy duty chassis. By design the complete assembly can be removed from its chassis, by a single toggle action, as may be required, in some instances, for decontamination purposes.

## IMPORTANT INFORMATION

Correctly selected and maintained the HZ series will form a valuable part of any system designed to control hazardous and health endangering dusts in the environment. It is important, however, to ensure the correct consideration is given to the appropriate clothing and protection required by the operator in carrying out any specialist operation.

A choice of MicroFlo or HepaFlo fine-dust bags

HZ kits see specification table

## HZ Specifications

Model	Motor	Power	Suction	Airflow	Kit	Capacity	Filtration	Range	Weight	Size	
HZ200	1200W	230V AC 50/60Hz	2500mm	42L/sec	BB17	9L	H*	26.8 m	10.1kg	355x355x520mm	
HZ250					8L	11.5kg			340x340x455mm		
HZ370					10L	10.4kg			355x355x570mm		
HZ570	2400W	230V AC 50/60Hz	2500mm	84L/sec	BB19	23L	H*	26.8 m	17.1kg	415x415x645mm	
HZD570					35L	19.3kg			415x415x645mm		
HZ750	1200W	230V AC 50/60Hz	2500mm	42L/sec	BB20	40L	H*	26.8 m	19.8kg	510x510x960mm	
HZD750	2400W								84L/sec	22kg	510x510x960mm
HZ900	1200W								42L/sec	25kg	800x490x880mm
HZD900	2400W								84L/sec	27.2kg	800x490x880mm

# HZ Range

Better Hazardous DustCare...  
by design

# HZ range...

The HZ series of machines are designed to collect H class dusts. All models operate to a 99.997% filter efficiency, H14 HEPA and tested to IEC 60 335-2-69.

## HZ200, HZ370, HZ250

HEPA H14  
filtration  
99.997%

The three small machines within the HZ range only vary in the container size and construction. The universal HZ power head is of all steel construction and incorporates a full TwinFlo motor, service centre handle, bag full indicator and NuCable plugged cable system as standard. The HEPA H14 filter unit is mounted in an all steel secure module with a separate primary pre-filter in the container itself and all machines are designed to operate together with our high efficiency HepaFlo dust bags to ensure excellent performance and easy, clean and safe emptying.

# High hazard dusts under complete control

## HZ570, HZD570

The midrange HZ570 series provides a choice of Simplex HZ570 one motor or Duplex HZD570 two motored models.

The Duplex models have a 100% increase in AirFlo over the Simplex units and would be the preferred selection where larger volumes of fine material need to be collected.

The Power head is of all steel construction fitted with one or two TwinFlo motors, service centre handle with bag full indicator, NuCable plugged mains cable system and power outlet socket as standard.

The H class filter module is securely mounted within our all steel housing and provides an efficiency standard of 99.997% in use.

The container is of a one piece Structofoam construction.

**Our high efficiency system ensures superb operational performance using either HepaFlo or MicroFlo dust bags.**

Transit safety cap top and bottom

NuCable allows easy cable replacement

## HZ900, HZD900

HEPA H14  
filtration  
99.997%

HZ570

HZ900

**Larger capacity and mobility whilst incorporating all the advanced features of the 570 models**

Available in one motored HZ900 or two motored HZD900 models, and designed to provide increased capacity and mobility whilst incorporating all the many advanced features of the 570 models.

An important consideration when selecting a machine for the collection of hazardous dusts is that, quite often, the dust itself is by definition "fine dust" and, in this respect, the MicroFlo bag option provides operational performance to an exceptionally high standard combined with the ideal system for clean and safe emptying.

Standard power outlet socket  
Simplex 2000W power outlet  
Duplex 1000W power outlet
