Product Overview

Product Specification Sheet

- **Hose Reel-** Pressure hose can be wound around the reel for easy and quick preparation/ cleaning
- **Lightweight-** The use of a series motor ensures that the weight of the unit is reduced compared with competitor's units.
- **Low Noise-** minimised by sound absorption sponges on the inside of housing along with a vibration isolation structure incorporated in the pumps design.
- **10m High Pressure Hose-** providing more convenience for a range of applications
- **Self Priming Function-** Water can be drawn from a bucket, not requiring any pressure to fill the unit (max suction head of 1m)
- **High/ Low 2 Pressure selection-**Low mode reduces the motor's rpm operation, saving 20% water consumption per minute and reduces operating noise. Prefect for soft washing of screen doors, air conditioner outdoor units, car bodies, etc.
