Whiteley Corporation 

Sanitol

ANTIBACTERIAL HAND SANITISER

SANITOL is a uniquely formulated antibacterial hand sanitiser to prevent the spread of harmful germs. SANITOL's rapidly acting formula kills 99.99% of germs - protecting you against a range of potentially unsafe micro-organisms. SANITOL is an effective component of a hand and personal hygiene program.

SANITOL's scientifically advanced formula is gentle on all skin types. SANITOL is ideal for use in the workplace, home and on-the-go.

SANITOL's broad spectrum activity ensures the antibacterial hand sanitiser is suitable for a range of hand hygiene applications. Research has shown 70% alcohol is effective against vegetative bacteria; the alcohol denatures proteins – the primary component of germs' cells – this action causes the germ to die.

SANITOL contains a natural emollient, which replicates the skin's own lipids, replenishing moisturiser leaving hands feeling soft, smooth & revitalized. The natural skin conditioners and light pleasant fragrance enhancing your sense of well-being & 'germ-free' confidence.

SANITOL's versatile range of dispensing options makes the antibacterial hand sanitiser ideal for a vast range of applications

The 500mL dispenser is ideal for high usage areas:

- Staff Rooms
- Amenity areas
- Food preparation
- Offices
- Waiting Rooms
- Travelling
- Sport and Recreation including gyms
- Construction

Personal pack sizes ensure you can quickly and easily apply SANITOL hand sanitiser; the personal pack is also helpful for staff and children who are learning the importance of good hand hygiene practice.

Whiteley Corporation understands that good hand hygiene practices are a combination of effective chemistry, correct product usage and thorough education. To learn more about Whiteley's skin care products visit our website www.whiteley.com.au or email handhygiene@whiteley.com.au
