

Actichem Bust

Heavy duty protein & stain spotter

Actichem Bust is a radical strength protein and blood removal formulation which also produces outstanding results on cleaning tough soiling from nylon carpeting. It combines powerful protein dissolving

chemistry with super wetting and penetrating technology for bursting through protein soils and releasing them from fibres and hard surfaces.

BENEFITS

- **Innovative Chemistry** – Actichem Bust not only provides a tough solution for a tough problem, but uses modern innovative technology to ensure that every dollar spent is producing maximum results.
- **Radical Chemical Action** – Actichem Bust employs powerful protein dissolving chemistry for a reliable solution where other cleaners have failed.
- **Protein Stain Removal** – Actichem Bust removes stains caused by egg, gravy, milk, blood, vomit and other protein sources.
- **Versatile** – Actichem Bust removes more than just protein stains. It produces outstanding results when used as a prespray for cleaning trashed and heavily soiled nylon carpets.
- **Dynamic Penetration Feature** – The inclusion of super wetting and penetrating agents ensure that Actichem Bust quickly and effectively wets out the fibres, carpet backing and even the substrate below to ensure total elimination of all areas which have been contaminated.
- **Concentrate Savings** – Actichem Bust is a highly concentrated formulation enabling economical dilution rates and cost savings.

DIRECTIONS for USE

Always pre-test in an inconspicuous location for substrate sensitivity to chemicals.

Application:

1. Scrape or blot up all loose surface soil.
2. Apply Actichem Bust undiluted to the stain area.
3. Apply this solution onto the fibre or fabric until it is wetted out.
4. Agitate solution using a carpet rake or upholstery cleaning brush.
5. Allow 10 – 20 minutes reaction time.
6. Rinse extract using Actichem Rinse Pro.
7. Allow to dry. Assist drying by increasing ventilation.

Prespray Application

1. Dilute Actichem Bust 1:9 with clean water.
2. Apply the prespray solution onto the carpet area to be cleaned.
3. Agitate and allow 5 to 10 minutes dwell time.
4. Rinse extract with Actichem Rinse Pro.
5. Allow to dry. Assist drying by increasing ventilation.

PRODUCT SPECIFICATIONS

Product code: AP496

pH: 10.50 - 11.5 RTU

Colour: Blue, clear liquid

Packaging: 500ml, 5Lt & 20Lt
