PROVEN TWIN-MOTOR CONCEPT.

THE SEBO BS 360 / 460

The SEBO 360 / 460 upright vacuum cleaner continues the long and successful SEBO tradition of twin-motor upright vacuum cleaners. Proven features like the COMFORT power head, and the suction wand with telescopic tube and equipped with an electronic guidance system supplies users with a powerful yet Operator friendly vacuum cleaner.

01 Works when flat

The BS 360 and 460 can work when completely flat. With their low-profile design, they make it easy to clean under furniture.

02 Innovative power head

An electronic system advises the optimum setting for the 4-stage height adjustment and protects the motor and belt: If the brush is jammed it shuts down automatically.

03 Easy brush strip change

The brush strip of the power head can be changed without the use of tools, simply by pressing the release button.

04 Blockage clearing access

The self-closing flap on the bottom of the power head enables access to the suction channel to remove obstructions.

05 Filter bag continuity

The large filter bag (1055) with sealing lid for hygienic debris disposal.

06 Three stage filtration system

A HEPA exhaust filter gives "A" rated filtration.
