

40V Max Brushless Upright Vacuum VC010G

HEAVY DUTY BRUSHLESS

**380mm
BRUSH WIDTH**

Product Statement

The VC010G provides a max sealed suction of 15kPa and 1.8m³/min Max airflow which delivers high performance suction to power through the toughest applications.

The rotating brush has 5 stage height adjustment to suit a range of hard floor and carpet cleaning applications and the 380mm width allows the user to cover larger areas quicker.

VC010G features options for reuseable or disposeable dust bags and the a HEPA filter to provide a high filtration rate of 99.97% capturing fine dust.

Onboard accessory storage means detail cleaning is within arms reach for either a round brush or crevice tool to be used with the removeable wand.

Product Overview

SPECIFICATIONS	
Max. sealed suction	15kPa
Max. air volume	1.8m ³ /min
Capacity	5L
Suction power	110W, 50W, 25W
Continuous Runtime	25 minutes (Max suction) BL4050F
Skin weight	7.3kg
Weight (with battery)	8.6kg (BL4050F)
Voltage	40V Max

- **Powerful Suction** – high performance suction for efficient use in the toughest applications
- **HEPA Filter** – High Efficiency Particulate Air filter for high filtration rate of up to 99.97%.
- **Detail Cleaning** – Removeable hand wand and flexible hose for cleaning away from the vacuum
- **3 Stage Suction Control** – Allows the user to achieve optimum runtime and suction power for their task
- **Quiet Mode** – Operates at just 60dB on lowest speed setting to limit disturbance to nearby people
- **Easy Maintenance** – Tool free brush change for easy maintenance on the go
- **On-board Storage** – crevice nozzle and round brush are secured in the back of the vacuum for easy access

Versatility

5 Stage brush height adjustment to suit a range of hard floors and carpet lengths

Convenience

Easy to read dial indicates suction level, battery capacity and brush/airflow errors

Functionality

Lays completely flat to optimise available space while vacuuming under furniture

Efficiency

380mm Brush width allows user to cover more area faster

Maintenance

Brush maintenance has been made easy by simply unclipping the brush cover assembly and sliding the brush out from the housing.

The brush itself has wide grooves between each strip of bristles to allow hair & fabric to be cut away and removed with minimal effort.

Convenience

Optional cyclone attachment assembly separates larger dust particles for easy disposal, allowing only fine dust to be collected in the bag.

This reduces long term filter maintenance and frequency of disposals from the main filter bag.

Standard Accessories		
	191D65-8	330mm Crevice Tool
	191D67-4	Round Brush
	-	Disposable Filter Bag 1pce
	191E39-5	HEPA Filter

Optional Accessories		
	191T96-3	Filter Bag Set Disposable 10pk
	191Y86-6	Reuseable Filter Bag
	1912B1-6	Cyclone Filter Attachment
	1914B1-8	Main Brush Assembly
