

VS001GZ
40V MAX BRUSHLESS WALK BEHIND SWEEPER

PRODUCT NOW AVAILABLE

XGT – The XGT Advantage

Cordless innovation is more than just bigger batteries. It’s about creating battery technology and motor engineering that work together for optimum performance. With Makita’s 40V Max Heavy Duty Brushless platform the higher battery output is a genuine solution for high demand industrial applications. The XGT tools and batteries have been designed with innovative smart technology. This unique communication process is the foundation for cutting-edge technology advances. Reliable tools are a must for all professional applications, and XGT is durable and built to perform.

Product Statement

Makita’s NEW 40V Max Brushless Walk Behind Sweeper is designed to effectively pick up debris and dust with a cleaning path of up to 650mm when using the side brush. Packed with features including 2 stage brush speed & vacuum setting, brush height adjustment and automatic filter cleaning. Optional accessories include a dust bag to increase capacity up to 47L and an adapter to suit Makpac storage or PDC1200 / PDC1500 Power Supply for longer runtimes.
